

## Labcon 96-well PCR plates

- Made of polypropylene
- Autoclavable (122°C, 15 min)
- Freezable at -80 °C
- Alphanumeric marking
- Compatible with most thermal cyclers

Cat. No.	Type of plate	Colour	Units/ carton	€ Excl. VAT carton
950640	Plate 0.2 ml Non skirted, flexible	Natural	100	NC -
950641		Yellow	1000	NC -
950642		Red	1000	NC -
950644		Blue	1000	NC -
950645		Green	1000	NC -
950646		Assorted	1000	NC -
950639	0.2 ml plate, non skirted with raised well edges	Natural	100	NC -
950647	0.1 ml skirted plate	Natural	100	NC -
950648		Yellow	1000	NC -
950649		Red	1000	NC -
950650		Violet	1000	NC -
950651		Blue	1000	NC -
950652		Green	1000	NC -
950653		Assorted	1000	NC -

## Labcon 384-well PCR plate

- Made of polypropylene
- Autoclavable (122°C, 15 min)
- Freezable at -80 °C
- Alphanumeric marking

Cat. No.	Description	Units/ carton	€ Excl. VAT/ carton
950654	25 µl skirted plate	100	NC -

## Labcon 96-well qPCR plates

- Usable in real-time PCR
- Made of polypropylene
- Autoclavable (122°C, 15 min)
- Freezable at -80 °C
- Alphanumeric marking

Cat. No.	Type of plate	Colour	Units/ carton	€ Excl. VAT carton
950637	0.2 ml non skirted plate	Opaque white	100	NC -
950636	0.2 ml semi-skirted plate		100	NC -
950638	0.1 ml skirted plate		100	NC -
