

## Falcon® Polypropylene 96-well storage plates

- ▶ Made of low-retention, deformation-resistant polypropylene
- ▶ Sealing with mat or film
- ▶ Compatible with robotic systems
- ▶ 96-well Standard plates

Cat. No.	Volume/wells	Bottom	Units/bag	Units/carton	€ Excl. VAT carton
351190	340 µl	Round	25	100	NC -
353263	340 µl	Conical	25	100	NC -

## ABgene® Polypropylene 96-well storage microplates

- ▶ Made of virgin polypropylene without additives
- ▶ Ideal for combinatorial chemistry, storage
- ▶ Well Volume : 370 µl
- ▶ To SBS standards
- ▶ Well Bottom: round
- ▶ Ultra-transparent wells for excellent sample visibility
- ▶ Alphanumeric index

Cat. No.	Colour	Units/carton	€ Excl. VAT carton
016060	Natural	100	NC -

## ABgene® 96-well storage plates, V-bottom

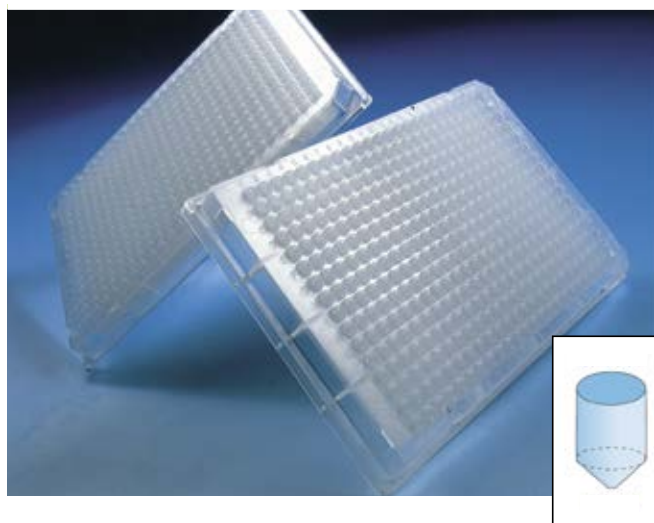

- ▶ Made of virgin polypropylene for sample storage (no leaching)
- ▶ Reinforced skirt for handling with robots
- ▶ Capacity 200 µl per well
- ▶ To SBS standards
- ▶ Alphanumeric marking and cut corner
- ▶ Closes with heat-sealable film, adhesive or cap strips
- ▶ Also available with custom barcode

Cat. No.	Description	Units/carton	€ Excl. VAT carton
016313	Storage 96-well plate, V bottom	100	NC -

## ABgene® 384-well Microarray Plates

- ▶ Made of virgin polypropylene with excellent chemical resistance
- ▶ For storage of low volume samples
- ▶ Compliant with SBS microplate standards
- ▶ Low profile and reinforced sides
- ▶ Also available with custom barcodes
- ▶ Alphanumeric marking and cut corners
- ▶ Can be closed with heat-sealable or adhesive film, or a flexible septum mat

Cat. No.	Well Vol. (µl)	Well shape	Colour	Units/carton	€ Excl. VAT carton
016444	55	Conical	Natural	50	NC -
