

## Brady i3300 Printer

The i3300 thermal transfer printer can print on a full range of materials for safety and facility identification labels as well as pre-cut labels for wire, product or laboratory equipment identification.

- Self-calibration, automatic media recognition, consumable replacement in 20 seconds
- PC connectable with LabelMark software
- USB and Ethernet ports, WIFI connection

- 300 dpi resolution
- Colour touch screen
- Dust reduction thanks to filter pads
