

Corning® Plates MATRIGEL® 3D Coated

CORNING

- Culture plates coated with 3D-qualified Matrigel®
- Ideal for screening research on spheroids, organoids, or tumoroids
- Improve the repeatability and accuracy of 3D analyses

Cat. No.	Number of wells	Treatment	Colour	Type of bottom	Units/ bag	Units/ carton	€ Excl. VAT/ carton
356259	96	Matrigel® without phenol red	Black	Flat-Transparent	1	1	NC -
356256	384	Matrigel® without phenol red	Black	Flat-Transparent	1	5	NC -
356257	384	Matrigel® without phenol red	White	Flat-Transparent	1	5	NC -
356258	384	Matrigel® without phenol red	White	Flat-Transparent	1	1	NC -

CELL CULTURE

CELLSTAR® Cell-Repellent Treatment

greiner  
BIO-ONE

- The CELLSTAR® Cell-Repellent surface treatment of Greiner Bio-One effectively prevents cell adhesion
- Spheroid and aggregated stem cell cultures
- Suspension culture of adherent or semi-adherent cells
- Culture on hydrogel or equivalent
- 3D magnetic culture with the M3D Greiner Bio-One system
- Thanks to an innovative chemical modification of the polymer, the Cell-Repellent Greiner Bio-One surface does not interfere with culture conditions, making it an excellent support for primary or sensitive cultures
- Unit packaging possible on certain items, please consult our specialist

- Sterile
- Non-cytotoxic
