

CELLSTAR Treated Culture (TC) or Advanced TC™ Greiner Bio-One flasks

- **Standard cap**
- **Double position for cell ventilation with visual control**
- **Filter cap**
- **PET membrane : Fully hydrophobic PTFE prevents the filter from wetting, optimum gas exchange**

➤ **For adherent cells with different surfaces and treatments**

- **TC-Treated**
- **Standard physical surface treatment for adherent cells**
- **Advanced TC™**
- **Advanced chemical surface treatment for sensitive cells, primary cells or cells placed in restrictive culture conditions (e.g. less serum)**
- **Optimised geometry for optimal access of scrapers and pipettes**
- **Side grading for easy filling**
- **Stacking rib**
- **Peelable sterile packaging**

Enter the Cat. No. on www.dulis.nl to access the Greiner Bio-One surface treatment guide

CELLCOAT®

- **Perfectly suited for primary cells, sensitive lines or any cells placed under stress (no serum, transfection, numerous washes, etc.)**
- **Also allow, for certain cells, a better differentiation**

- **Ready to use**
- **Non-cytotoxic**
- **Poly-Lysine and Collagen I storable at room temperature**
- **Strict control of raw materials, consistent quality**
