Polypropylene containers with filter

- HEPA filter allows air to pass through while preventing contamination
- Non-sterile boxes: reusable and autoclavable up to 7 times
- Containers available in sterile version - add an "S" after the Cat. No. (not autoclavable and not reusable)
- 100% recyclable
- Gas exchange depends on the length of the filter; the longer the filter, the less gas exchange takes place:
 - white and red filters recommended for plants with a long incubation time
 - green filter recommended for plants with a short incubation time or requiring high gas exchange
