

Microtube strips for PCR and QPCR E.U.

E.U. for "Extremely uniform". Same general characteristics as the individual E.U. microtubes for PCR and QPCR (see page 209).

8-tube low profile strips

- Suitable for use in most standard PCR instruments or for real-time PCR with height-adjustable lid
- With frosted marking area at both ends of the strip
- Strips fit into the 038718 matrix system to transport 96 microplate tubes at once
- For use with EU flat cap strips (series 038725B) or EU half dome optical cap strip (series 038633)

E.U. matrix support

Cat. No.	Description	€ Excl. VAT
038718	E.U. matrix holder for PCR tubes/strips	NC -

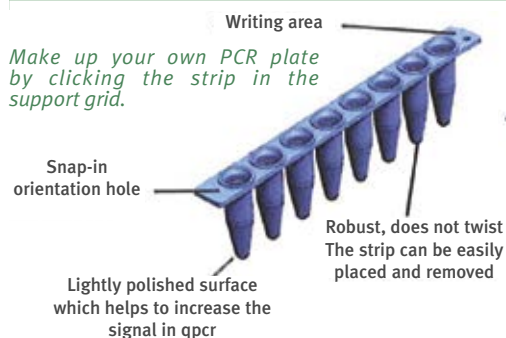

8-tube high profile strips

- Series 038611: combines the advantages of the "EU" wall with the shape of conventional PCR tubes
- Series 038622: with frosted marking area at both ends of the strip
- Suitable for use in almost all PCR equipment
- For use with EU flat cap strips (series 038725B) or EU half dome optical cap strips (series 038636) - see below
- Strips fit into the 038718 matrix system to transport 96 microplate tubes at once

Type	High profile classic 0,2 ml	High profile + marking area	Low profile + marking area	Low profile, high strength
Natural	038611	038622	038309B	038789
Red	038612	038623	038310	-

€ Excl. VAT	NC -	NC -	NC -	-

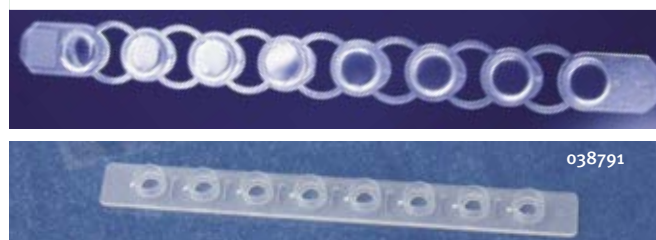

8-PCR tube strip 0.2 ml E.U.

- Low evaporation
- Extra robust, no risk of deformation
- Compatible with most PCR and QPCR devices including ABI 7300 and ABI 7500

Cat.No.	Description	Units/ carton	€ Excl. VAT/ carton
038795	8-Tube strip 0.2 ml	120	NC -
038796	8-flat optical cap strip	120	NC -
038798	Reusable natural grid tube holder	8	NC -

Optical cap strips

Flat high profile

Real-time PCR flat optical caps

- Can also be used for conventional thermal cycles
- With glass-like transparent area that equals the performance of QPCR adhesives
- For use with high or low profile tube strips

Semi-domed optical caps

- 8-Semi-domed optical cap strips are used for QPCR due to their optically flat area at the top of the cap
- For use with high or low profile tube strips

Type	Flat	Flat	Semi-domed	Semi-domed	Flat
For tubes	Low profile,	High profile	Low	High profile	Universal

Universal flat optical caps

- For all Bioplastics (EU) brand microplates and tube strips
- For applications in QPCR, storage or PCR
- Caps cut into the plastic tab avoid the risk of touching the optical part of the cap
