

FastPlate PCR plate for ABI + reagent kit

Plate

- > 96-well plate with printed markings
- > Specially designed for the ABI 9800 and 7500 FAST thermal cyclers
- > Very transparent low profile
- > Can also be used on most thermal cyclers

Reagent

- > "Inferno Master Mix" specially designed for the specific protocols of the ABI 9800
- > The kit includes 2 flasks of Master Mix (1250 µl each) for 250 reactions
- > The formula combines a Taq and a buffer mix

Cat. No.	Description	Units/carton	€ Excl. VAT/carton
138800	PCR FastPlate Plate	25 plates	NC -
138900	PCR FastPlate Plate	4 x 25 plates	NC -
011670	Inferno Master Mix	2 x 1250 µl	NC -

96 and 384 well PCR plates for Light Cycler®

- > Polypropylene, white
- > Specially designed for the Light Cycler® Roche®
- > For use only with adhesive film Cat. No. 136590

Cat. No.	Description	Units/carton	€ Excl. VAT/carton
138870	96-well PCR plate for Light Cycler®	100	NC -
138820	384-well PCR plate for Light Cycler®	100	NC -
136590	Adhesive film for QPCR plate	100	NC -

Enter the Cat. No. on dulis.nl to see the PCR plates compatibility guide

ClearLine® PCR Plates

- > 96-well plate
- > Natural
- > Alphanumeric index printed in black

Cat. No.	Skirt	Working volume	Format	Other features	Units/carton	€ Excl. VAT/carton
257047	Non skirted	200 µl	Universal	Flange around each well for easy sealing	100	NC -
257048	Skirted	200 µl	Universal	Low profile, CFX96 compatible	100	NC -
257049	Half-skirted	200 µl	Universal	Flange around each well for easy sealing	100	NC -
257050	Half-skirted	100 µl	ABI	Fast plate, low profile, ultra-transparent wells	100	NC -

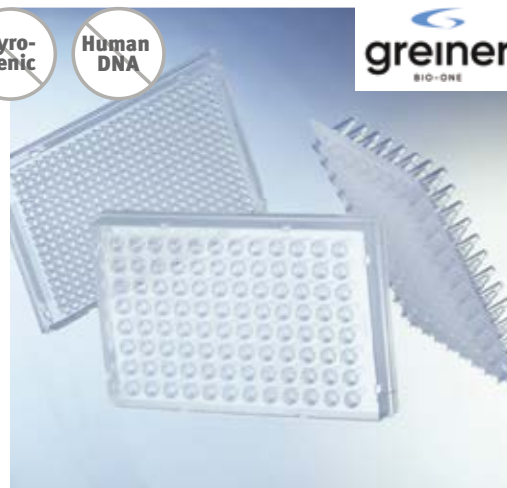

Greiner Bio-One Sapphire PCR and qPCR Microplaques

- > Compatibility guide available + possible samples for testing
- > Medical grade PP without additives
- > Alphanumeric marking
- > Greiner Bio-One AMPLiSeal optical film seal for PCR/qPCR 676040 or 3732XX 8-cap strip

EU quantitative PCR microplates

- > Skirted Low profile or skirtless (easily cut into 16, 24, 32 or 48 well strips)
- > One-piece moulding, uniform and thin wall
- > Frosted tubes for PCR and real-time PCR applications
