

Staining tray for 10 or 20 slides

- For routine staining of samples that require a humid environment
- For immunohistochemistry, haematology, cytology and microbiology
- Stackable, With four rubber feet
- The black ABS base can hold up to 20 slides positioned on the non-slip rails
- The base acts as a reservoir for the excess liquid or as a humidifier

Two lids:

- a transparent PETG lid for viewing the samples, usable from -20 °C to 60 °C;
- a black lid for fluorescence incubations. Made of ABS, usable from -80 °C to + 80 °C.
