

Greiner Bio-One Cryotubes Cryo.s™ Datamatrix

TIP See tubes for Biobanks on page 425

Datamatrix Cryo Rack

- Made of polypropylene
- Temperature resistant from -196 °C to +30 °C
- Capacity of 48 tubes
- Format compatible for automation or SBS format or microplate
- Dimensions : 127.76 x 85.48 mm

Cryotubes incorporating a Datamatrix barcode, a two-dimensional matrix code, at its base.

- Datamatrix ECC200 code with Reed-Solomon error correction algorithm
- Sterile 10-6 SAL (according to ISO11137), CE IVD
- Medical grade polypropylene without leachable compounds and USP Class VI certified
- 2D barcode (predefined) under the tube and type 128 barcode on the side of the tube
- 2DC Version : automatable external screw cap compatible with all liquid pipetting machines and de-/re-capping systems

Cat. No.	Volume (ml)	Screw	Silicone seal	Units/carton	€ Excl. VAT carton
123263-2DG	1	Internal	With	500	NC -
122263-2DG	2	Internal	With	500	NC -
126263-2DG	2	External	Without	500	NC -
127263-2DG	4	External	Without	300	NC -
126263-2DC	2	External	Without	500	NC -
127263-2DC	4	External	Without	300	NC -

Accessory

- Rack for 48 caps: intermediate storage of screw caps (after decapping, during tube filling)
- Compatible with Hamilton Storage Technologies LabElite Bottle Opener

Cat. No.	Description	Units/carton	€ Excl. VAT carton
803507	Rack for 48 screw caps	8	NC -

Cat.No	Description	Height (mm)	Units/carton	€ Excl. VAT carton
803277	Rack without lid	30	20	NC -
803202	Rack for 1 and 2 ml tubes with low lid	52.5	20	NC -
803270	Rack for 4 ml tube with high lid	88.5	15	NC -

Corning® Cryotubes with barcode

- Bar code 1D/2D
- Caps compatible with capper/decapper.
- Lockable base: prevents rotation of the tube in the rack (431724 and 431725)
- Volume 2 ml
- Autoclavable tubes and caps

Cat. No.	Bar code	Thread	Units/bag	Units/carton	€ Excl. VAT/carton
431721	1D/2D	Internal	50	500	NC -
431722	1D/2D	External	50	500	NC -
431723	1D	Internal	50	500	NC -

Eppendorf tricode cryotubes

- Fast and secure sample identification
- 3 Barcodes :
 - Human readable barcode
 - 1D barcode
 - 2D Datamatrix barcode
- High quality virgin polypropylene tubes, manufactured in a class VIII clean room for maximum sample purity
- Rack tubes with twist lock bottom for one-handed opening and closing of tubes
- Rack with locking system for secure closure
- Operating temperature :
 - 196 °C (gas phase of liquid nitrogen) to +121 °C
