

2D V-bottom tubes - septum cap

- USP Class VI
- Made of polypropylene
- Thermoplastic elastomer cap
- Recommended for use at room temperature and down to -80°C
- 500 µl, 750 µl or 1.4 ml tubes
- Sold without caps except for Duraseal which are pre-installed

2 types of stoppers:

- Duraseal: special automat, permanently installed, long term storage up to -150 °C
- Without cap: standard or pre-slotted version

Matrix transfer tubes with Duraseal cap

- Duraseal cap :
- Made of thermoplastic elastomer, V-bottom, pre-split, individual caps
- Compatible with all Matrix storage tubes
- Designed to be drilled over 200 times
- Solvent resistant, temperature resistant from -80 °C to +100 °C
- Excellent barrier to water vapours and DMSO vapours
- Extractable material: absent after soaking in DMSO
- Delivered mounted on tubes or in bulk
