

Finnpipettes F1, F2 and F3

Common features

- ▶ Lightweight handle, little force required for attachment, tip ejection and pipetting
- ▶ Patented "Super Blow-out" system: an additional volume of air is blown in to increase the accuracy of microvolumes up to 50 µl
- ▶ "Ergovision" display : Black number on white background for better readability
- ▶ Each pipette is delivered with: a calibration certificate, a removal/calibration key, an adhesive holder
- ▶ Also available in fixed volume, find them on our website
- ▶ Warranty: 3 years

Features Finn pipette F1

- ▶ Finger rest can be adjusted to 120°C to suit left and right handed users
- ▶ Power-assisted ejector: reduces tip ejection pressure by 50% and limits liquid splashing
- ▶ Lockable volume adjustment
- ▶ Autoclavable lower part

Features Finn pipette F2

- ▶ Resistant to UV Materials
- ▶ Fully autoclavable without disassembly
- ▶ Power-assisted ejector: reduces tip ejection pressure by 50% and limits liquid splashing
- ▶ Double-action push button to prevent accidental volume changes during operation

Features Finn pipette F3

- ▶ Resistant to UV Materials
- ▶ Autoclavable lower part
- ▶ Double-action push button to prevent accidental volume changes during operation
