

Special filter tips

Filter tips specially adapted to molecular biology applications (gel) or particular pipette brands.

- Self-sealing anti-contamination filter
- Sterile on rack

Special multi-channel tips

300 µl tips on a rack or in strips of 4 for multichannel pipettes. The reinforced rigidity of the rack ensures good stability and avoids deformation when the tips are pushed in.

Suitable for LabSystems, Sartorius Biohitfamily, Eppendorf, Costar. The flexible 200 µl tip ensures an easy grip without forcing.
