

Cryotubes with reinforced sealing

Cryotubes with external thread and flat joint (Covering cap)

Cryotubes with internal screw thread with flat seal (plug cap)

Sterile polypropylene cryotubes. The 102027N, 102028N, 102051N have a cylindrical silicone seal, not the flat one found in most cryotubes. This joint ensures an improved seal and better safety.

- Notched skirt to lock the tube in the rack
- Graduated tubes with identification plate
- Sterile

Cryotubes with external thread and flat seal (Covering cap)

Cat. No.	Volume (ml)	Bottom	Skirt	ø x h (mm)	Pack unit.	Units/bag	€ Excl. VAT bag
