

CoolRack

- Made of aluminium alloy with high thermal conductivity
- Ensures uniform temperature maintenance across all samples
- No direct contact with ice: no contamination
- Can be used in an ice tray, dry ice, liquid nitrogen, incubator or oven, with CoolBox
- Desired temperature reached quickly
- Cleanable with any type of disinfectant and detergent including RNase away
- Can be used from -196 °C to +100 °C
- Autoclavable
